

A close-up photograph of a French Bulldog's face, looking intently at a tablet computer held by a person in teal scrubs. The dog has a white face with a black mask around its eyes and a black collar. The background is softly blurred, showing the person's face and the teal scrubs.

**Your practice's
new best friend.**

vetcompanion.com

 VETCOMPANION™

Your practice's new best friend.

VetCompanion is the first multi-channel practice solution bringing the science of evidence-based veterinary medicine to the business of hospital/practice operations to improve overall performance.

- **Increase clinical efficiency:** Instant access to clinical information at the point-of-care – see more patients in less time, more effectively.
- **Improve your bottom line:** Saving just 20 minutes per day means more patients and more revenue.
- **Empower clinical staff:** Make vital clinical and drug formulary information available whenever they need it – in the exam room, in the hallway between appointments, in the field.
- **Ensure consistent care among providers:** Avoid a “battle of opinions” by adopting a consistent standard for staff to follow.
- **Provide more efficient staff training:** Consistent clinical protocols and standards that get new and existing staff on the same page, and united in their commitment to high quality care.
- **Increase client satisfaction and retention:** Practicing evidence-based veterinary medicine means higher quality clinical care with improved client interactions and outcomes.
- **Stay ahead of the technology wave sweeping through the veterinary field:** Augment your resources with VetCompanion’s innovative, point-of-care access to the most current veterinary information available – putting you ahead of the curve with the latest tools for improving pet care.

VetCompanion provides evidence-based veterinary medicine at your fingertips. We do the sourcing and updating so you can instantly access our unique, state-of-the art, clinical information and integrated drug formulary on demand – on any device, anywhere. With VetCompanion, staff can improve the client experience, veterinarians can provide higher quality care – right at the point-of-care, and practice managers can increase efficiency and profitability.

You’ve finally found the system-wide clinical solution for your practice.

Clinical answers... exactly when you need them.

Increase clinical efficiency with instant access to clinical information at the point-of-care – see more patients in less time, more effectively.

Empower clinical staff by making vital clinical and drug formulary information available whenever they need it – in the exam room, in the hallway between appointments, in the field.

When you have to be right, VetCompanion helps you make the right decisions, at the point-of-care, quickly and accurately – it's like having a team of experts guiding you.

VC supports clinical decisions by providing the best available evidence. Evidence-based clinical topics in VC are updated regularly, written by veterinarians and peer-reviewed by veterinary specialists – so you can trust the integrity of the information and utilize it to improve clinical decision making, quality of care, patient outcomes, training, and practice efficiency. We are the first veterinary clinical decision support technology based on a 20-year proven model used in human medicine*, and the leader in on-demand evidence-based veterinary medicine at the point-of-care.

**In human medicine, evidence-based, clinical decision support tools are having a significant impact on medical practices. UpToDate®, used by over 1.5 million physicians, reports a demonstrated impact on learning, better clinical decisions, improved quality of care, patient safety, efficiency, and mortality, based on conclusions from more than 80 research studies involving UpToDate®.*

Improve your bottom line:

Saving just 20 minutes per day means more patients and more revenue.

Searching for information using existing platforms – textbooks, VIN®, VetFolio® - can be surprisingly time-consuming. Consulting with colleagues isn't always possible during the busy clinic day. Keeping up-to-date with the latest clinical literature and guidelines can be labor-intensive. VetCompanion does the work for you, providing instant access to vital clinical information, right at the point-of-care.

Imagine saving just 20 minutes each day, per provider. Imagine scheduling one additional patient visit each day, per provider.

The value of VetCompanion becomes clear. VetCompanion makes practicing evidence-based veterinary medicine easy – a small investment with potential for big returns.

Improve efficiency & increase profitability

Typical general office exam

\$50

Avg. time for exam

20 mins.

If VetCompanion can save **20 minutes of time during the clinical day**

(searching textbooks, VIN®, VetFolio®, conferring with colleagues)

**\$50 x 5 days = \$250/wk
\$1000/month
\$12,000/yr (per provider)**

VetCompanion pays for itself in just 2 weeks!

Establish standards.

Ensure consistent care among providers: Avoid a “battle of opinions” by adopting a consistent standard for staff to follow.

Provide more efficient staff training: Consistent protocols and standards that get both new and existing staff on the same page and united in their commitment to high quality care and growth.

Establish standards of care among all providers in a practice or hospital system. Reduce the likelihood of unsatisfied clients, liability claims, and associated stress. Improve medical licensure protection – documenting the use of standardized, evidence-based recommendations helps protect veterinarians from unnecessary exposure to professional discipline sanctions.

Using a consistent standard allows easy onboarding of new clinical staff and provides support staff with a reliable resource for education – no more searching “Dr. Google®” for clinical information with uncertain validity. And practice managers now have a standardized go-to resource for any clinical questions relating to billing, coding, scheduling, and other important practice functions.

Be a hero. Today!

Increase client satisfaction and retention: Practicing evidence-based veterinary medicine means higher quality clinical care with improved client interactions and outcomes.

Stay ahead of the technology wave sweeping through the veterinary field: Augment existing resources with VetCompanion's innovative, point-of-care access to the most current veterinary information available – putting you ahead of the curve with the latest tools for improving pet care.

VetCompanion helps your practice provide the highest quality care, while increasing efficiency and improving your bottom line. Everyone wins when you provide staff with instant access to the most innovative resources available. **Be a hero - implement the system-wide clinical solution for your practice – VetCompanion.**

Try VetCompanion today. See the difference we can make in your practice!

Don't just take our word for it!

Debbie Boone, BS, CCS, CVPM
President
2 ManageVets Consulting, LLC
Gibsonville, North Carolina

"I work with many practices. One of the great challenges is getting all practitioners on the same page. I see VetCompanion as an excellent resource to allow a veterinary group to create standards of care within a practice group without the anxiety of a battle of opinions. VetCompanion can be the deciding vote. I am very excited veterinarians now have this resource."

Michael Dibler, DVM
Banfield Winter Springs, Florida

"It is ESSENTIAL that every new graduate have VetCompanion once they start working. Books just don't give you that instant access, and VC has all the studies that I can show my clients, confirming I'm up-to-date on all the latest evidence."

Howard Gittelman, DVM
Animal Medical of New City
New York

"As the content of VetCompanion has expanded, my use of VetCompanion has steadily grown. I enjoy the consistent, concise and thorough application of its design to accessing clinically relevant information, trusting that it is up-to-date. I appreciate the inclusion of the level of evidence, and references included at the end of each monograph. VetCompanion is a game changer and happy to have been an early adopter while watching it's growth!"
